

Bond® Blocks

Addition and Subtraction Kit

Intervention Only

Planner

Addition and Subtraction Kit

Response to Intervention

Response to Intervention

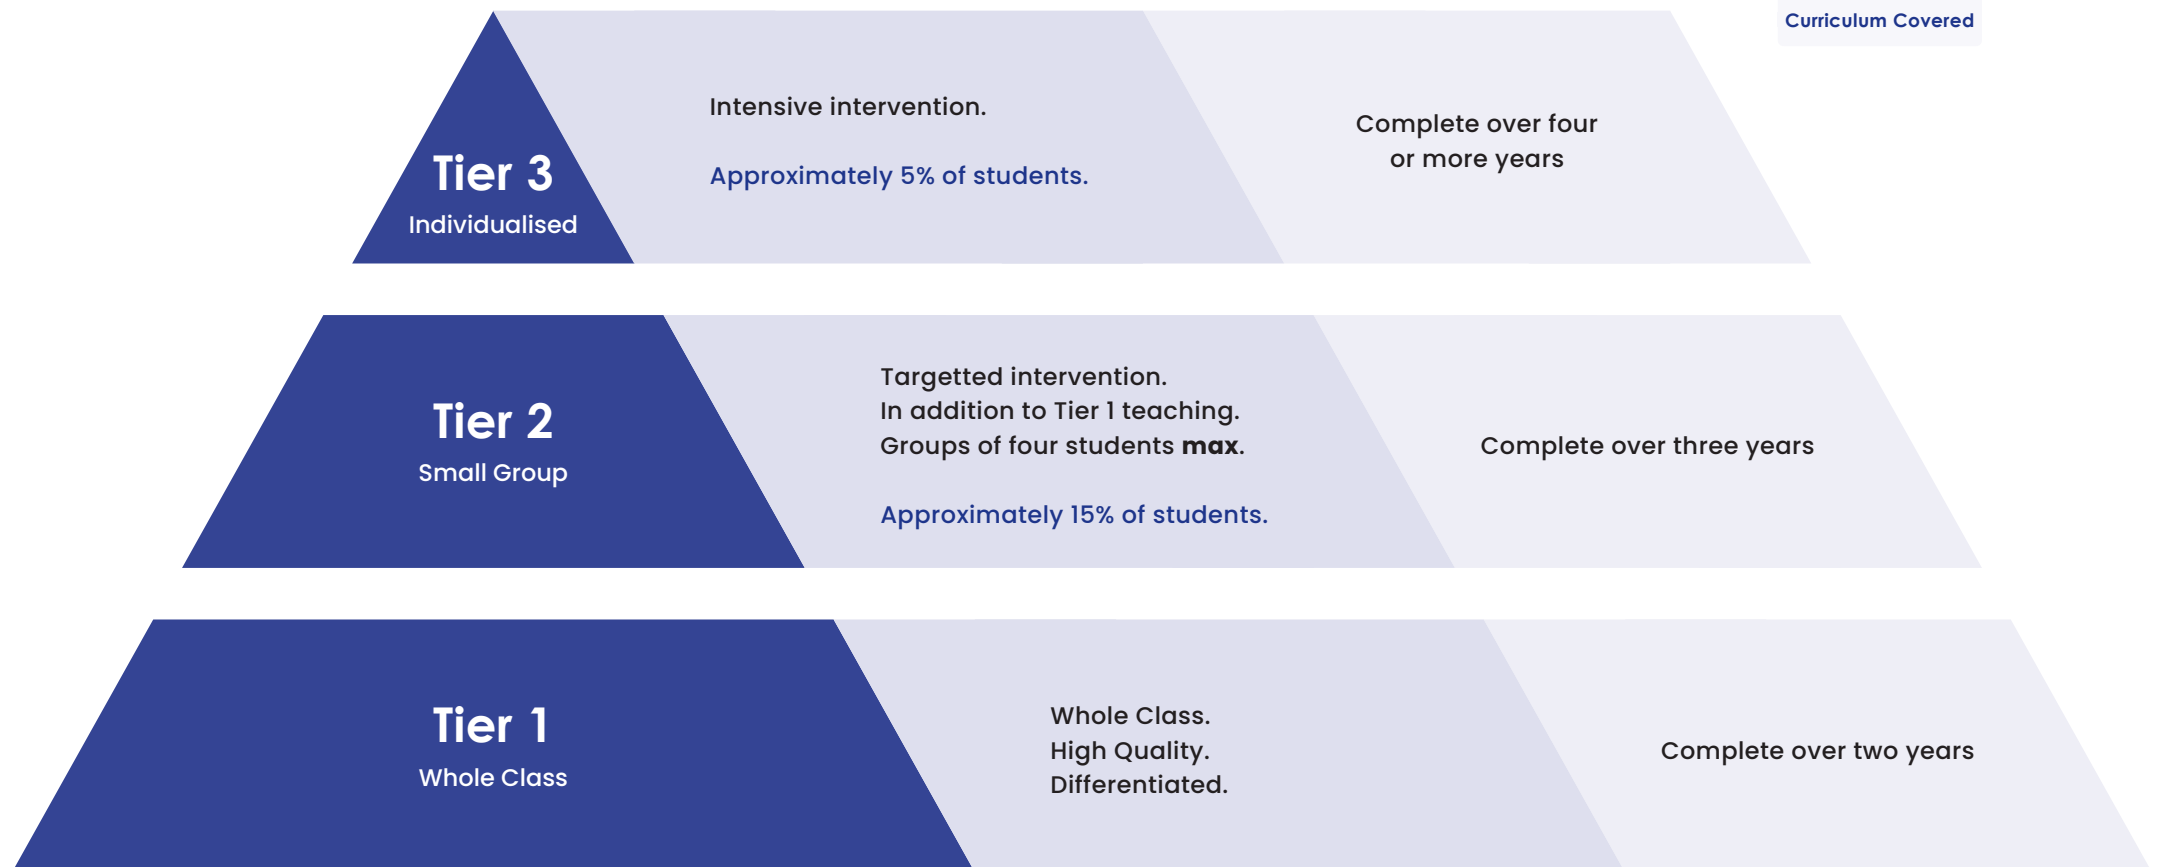

Bond Blocks is implemented at three different levels in line with a Response To Intervention model of instruction.

Addition & Subtraction

Bond Blocks Addition and Subtraction targets the additive phase of reasoning.

Curriculum Covered

Tier 2 Small Group Intervention

Tier 2 small group intervention is implemented in four, 10-minute sessions each week.

- In groups of four students. Groups of five or more are ineffective.
- **In addition to** tier one class teaching. Students who require intervention need extra practice.
- Outside of Maths and English. Do not schedule intervention regularly during the student's favourite subject, such as Art.

Bond Blocks takes two years to cover in Tier 1. It will take Tier 2 students three years to complete.

Starting in Year One or Two

This planner is designed to be started in Year 1 or 2. These students will complete intervention in three years as per the planner.

Starting in Year Three or Four

Students who start in Year 3 onwards, complete chapters dependent on the results of their placement test.

Starting in Year Five or Six

It is not ideal to commence Tier 2 intervention with Year 5 or 6 students. However, this is sometimes necessary for new students.

It is often best to start these students no lower than Chapter 4, Bonds of 10, even if their test identifies gaps earlier.

Tier 3 Intervention

Tier 3 intervention is implemented one-on-one for students on individualised education programs. Tier 3 intervention uses a modified version of this planner.

- Tier 3 students complete more of the 'a little easier' activities from the activity webpages.
- When completing activities aim for independent achievement for understanding, fluency addition and fluency subtraction activities.
- Tier 3 students complete reasoning and problem solving activities with support. Completing these activities with support will improve their ability to complete the understanding and fluency activities independently.

Addition and Subtraction Kit

Intervention Only Year Planner

This planner is a guide and will need to be modified to suit individual contexts depending upon student achievement and disposition.

<div>First Year of Intervention</div>		Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	
	Term 1	Assessment	Chapter 2: Bonds of 5							
	Term 2						Chapter 3: Doubling and Halving to 10			
	Term 3		Chapter 4: Five Plus Bonds						Chapter 4: Bonds of 10	
	Term 4									

Second Year of Intervention		Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8
	Term 1	Chapter 4: Bonds of 10	Chapter 6: Bonds of 6, 7, 8, 9 Bonds of 6 and 7

Term 3	Chapter 9: Bonds of 11 to 20							
Term 4		Chapter 9: Bonds of 11 to 20 Near Ten A Little Harder			Assessment			

Addition and Subtraction Kit

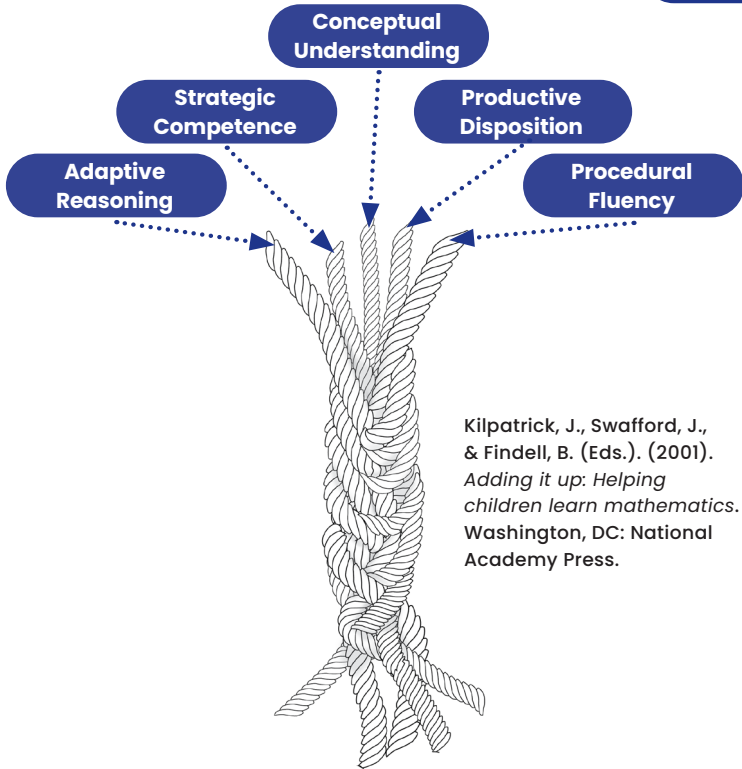

Intervention Only Planner Structure

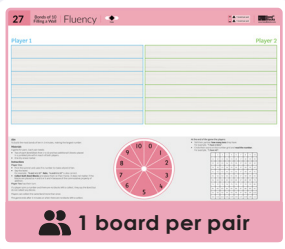

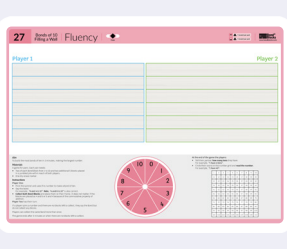

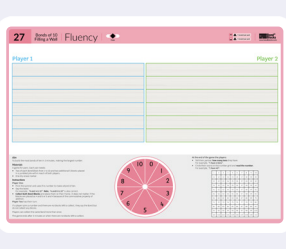

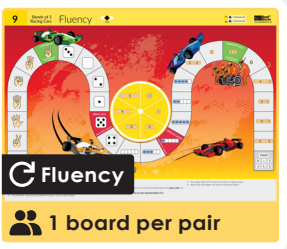

Gradual Release Model Implementation and Proficiency Strands

Relevant components of the **Gradual Release of Responsibility (GRR)** model are listed each day.

This planner covers all of the proficiency strands. The implementation of activities for each proficiency strand is slightly different. For example:

- **Understanding** activities require more 'I Do' and 'We Do' explicit teaching, and less 'You Do' practice. These boards have multiple sections, each with their own video.
- **Fluency** activities only have one video and have more time allocated to 'You Do' practice.

Week	Fluency - Bonds			Differentiation	Review
3	Day 1 10 min	Day 2 10 min	Day 3 10 min	A Little Easier	Day 4 10 min
	 1 board per pair Activity 27 • I do, we do, you do.	 Activity 27 • We do, you do.	 Activity 27 • You do.	 Scaffold: Counting order Working Memory Support: Desk visual Recall Practice: Subitised fingers	 1 board per pair Activity 9 • Review: You do.

Day 1

"I do" Focus

Introduce each new Activity by showing students the Activity Video.

This provides explicit teaching modelling of the:

- mathematics,
- language and
- completion of the activity.

Enlarged Paper Bond Blocks. Download for efficient 'I do' set up. Located in the Getting Started menu tab.

Day 2

"We do" Focus

Model the activity with the class:

- Use either a correct or incorrect example.
- Write the mathematical language on the board

Magnetic Bond Blocks. Make a set of blocks magnetic for teacher use during 'We do' instruction. Follow the instructions in the Getting Started menu tab.

Day 3

"You do" Focus

Observe students and provide immediate feedback about:

- mathematics (that it is correct),
- language and
- gesturing (touching the blocks correctly).

The lesson times are guides only. As students develop class routines they will become more efficient.

The goal is for students to be engaged in learning for **8 minutes** each session.

Differentiation

- **A Little Easier**
- **A Little Harder**

Intervention is differentiated using 'a little easier' and 'a little harder' examples from the Activity Webpage.

Day 4

Review

Day 4 is a review of a previous board, not necessarily from the same chapter.

The activity boards chosen for this section focus maintaining fluency of essential skills. Not every activity board is reviewed.

Monitoring Tools

There are two different monitoring tools for intervention:

- One for tier two, small groups of up to four students.
- One for tier three, individual instruction.

Both tools come in excel and PDF versions.

Intervention Only Planner

Counting

1

Counting

Building Block

Forwards 1 to 10

Counting

- Activities 1 to 5 (green boards) are revision of Foundation content. Intervention in addition and subtraction starts with Activity 6 (yellow boards).
- These boards have been superseded by the Bond Blocks Counting Kit. They are included for use by schools that do not have the Counting Kit.

Forwards 1 to 10

Use these boards for students who cannot count forwards to ten from any number.

1i) Forwards 1 to 10: starting at one

Counting

- Activities 1 to 5 (green boards) are revision of Foundation content. Intervention in addition and subtraction starts with Activity 6 (yellow boards).
- These boards have been superseded by the Bond Blocks Counting Kit. They are included for use by schools that do not have the Counting Kit.

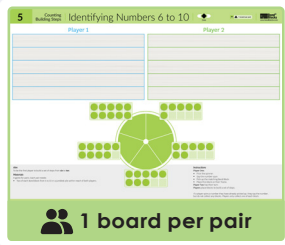

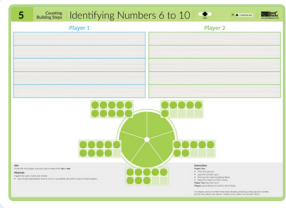

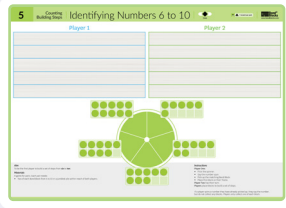

Identifying Quantities 1 to 5 and 6 to 10

Use these boards for students who cannot identify quantities of dots on ten frames, without counting.

Bonds of 6, 7, 8, 9 - Bonds of 6 and 7

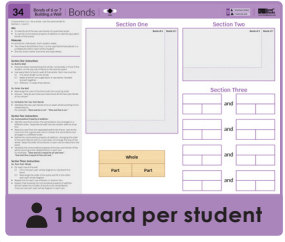

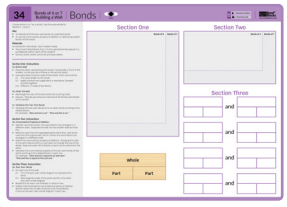

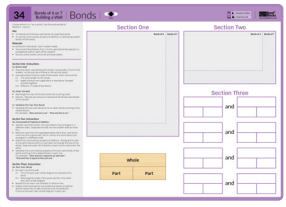

Chapter 6: Bonds of 6, 7, 8, 9

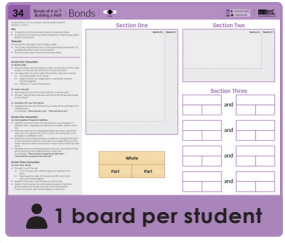

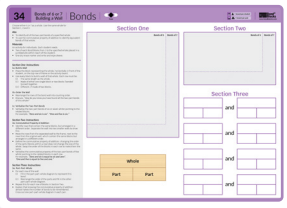

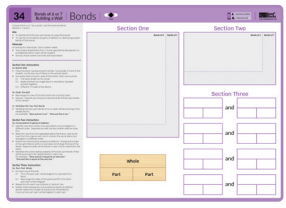

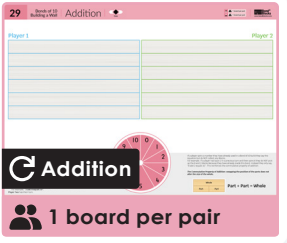

Students have learnt several Bonds of 6, 7, 8 and 9 in the previous chapters 'Doubling and Halving to 10' and 'Five Plus Bonds'.

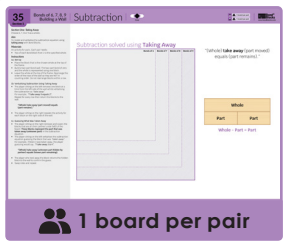

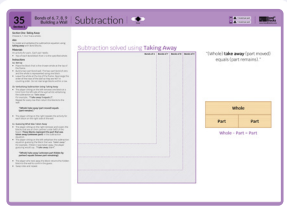

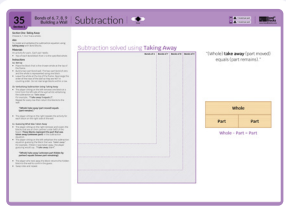

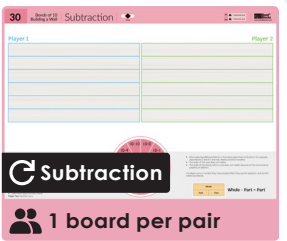

The most difficult bonds left to learn in this Chapter are:

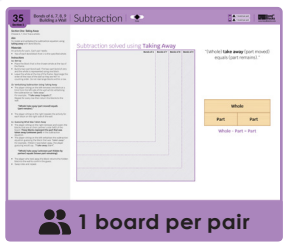

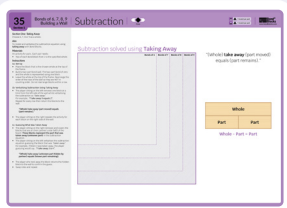

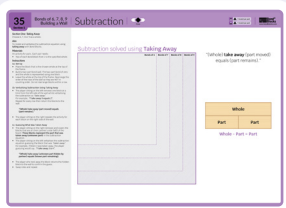

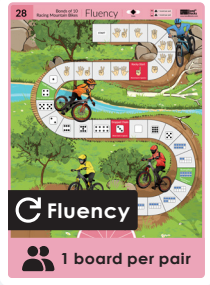

- 6 as 2 and 4,
- 8 as 2 and 6,
- 9 as 3 and 6
- 7 as 3 and 4,
- 9 as 2 and 7,

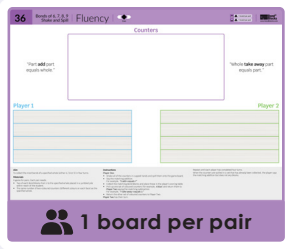

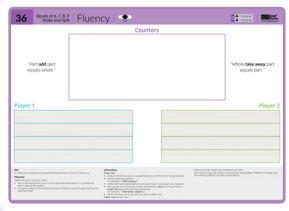

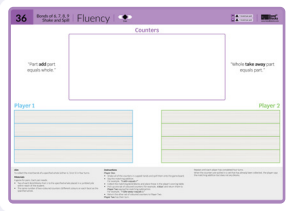

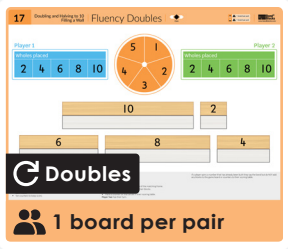

For this reason students do not practice every bond, every activity. They are spread so as students have more practice with the more difficult bonds.
