

Bond® Blocks

Counting to 10 and 20

Intervention Only

Response to Intervention

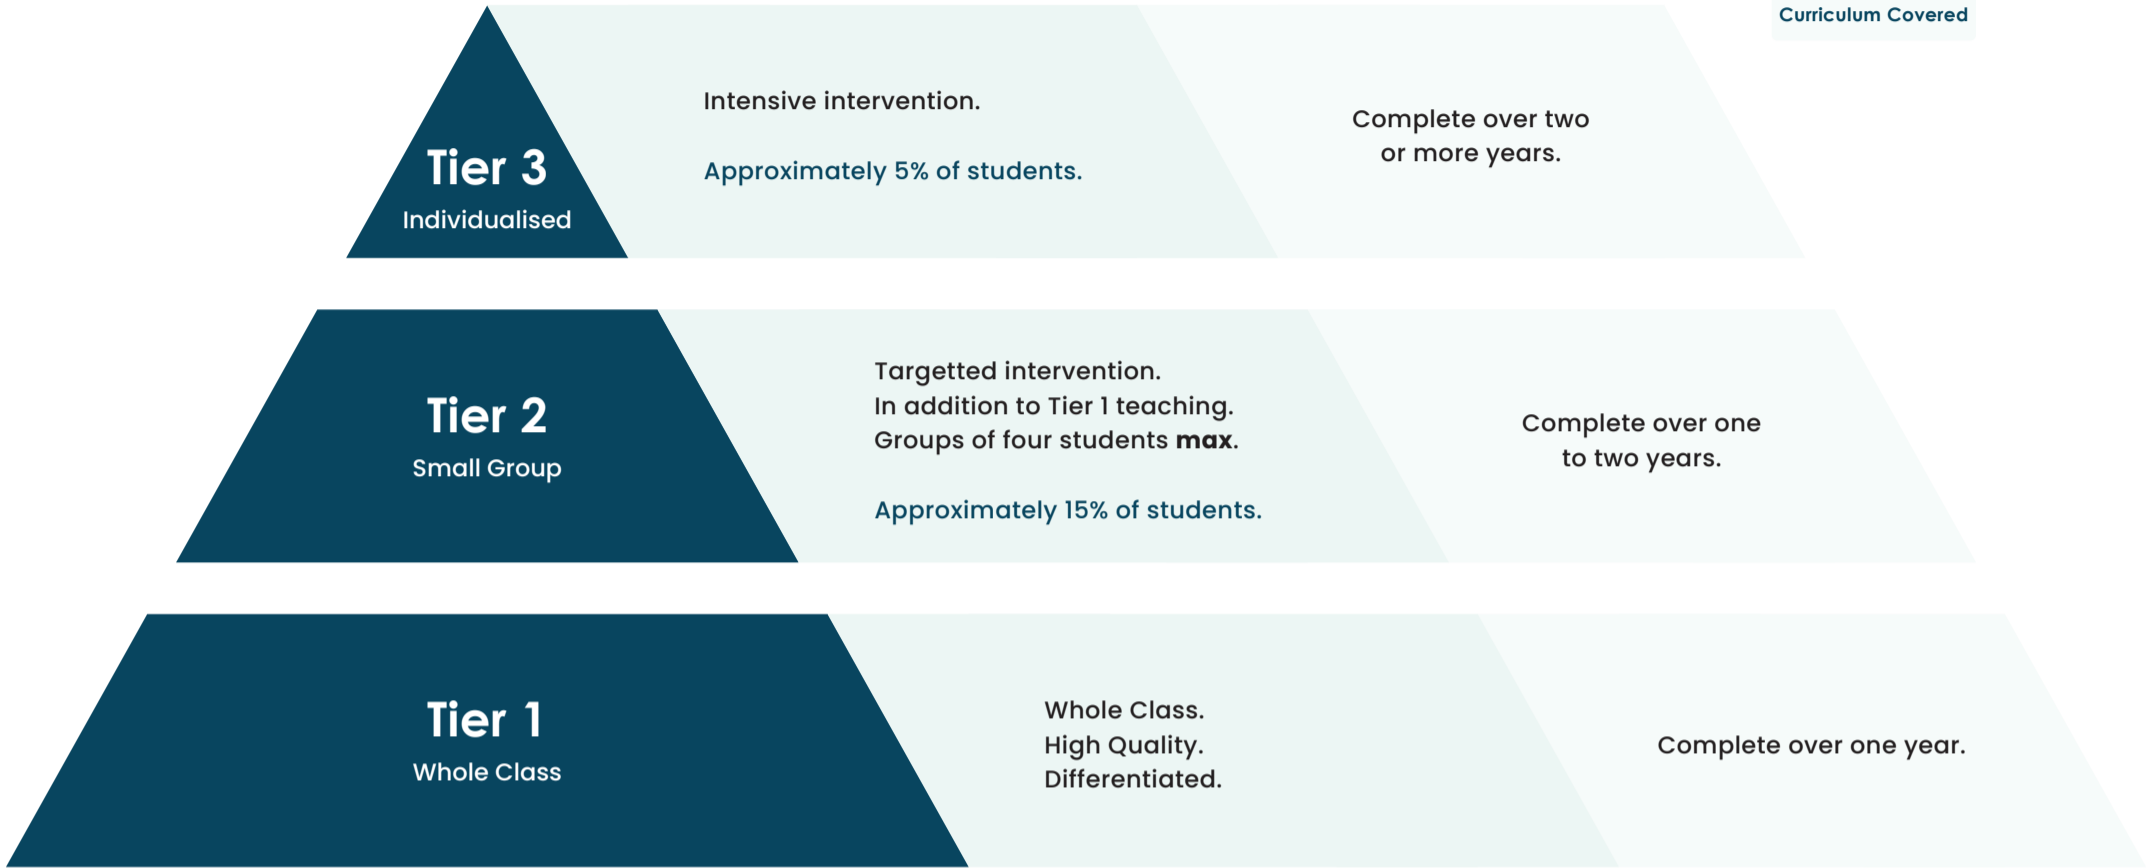

Bond Blocks is implemented at three different levels in line with a Response To Intervention model of instruction.

Counting to 10 & 20

Bond Blocks Counting to 10 & 20 targets the counting phase of reasoning.

Curriculum Covered

Tier 2 Small Group Intervention

Tier 2 small group intervention is implemented in four, 10-minute sessions each week.

- In groups of four students. Groups of five or more are ineffective.
- **In addition to** tier one class teaching. Students who require intervention need extra practice.
- Outside of Maths and English. Do not schedule intervention regularly during the student's favourite subject.

Tier 3 Intervention

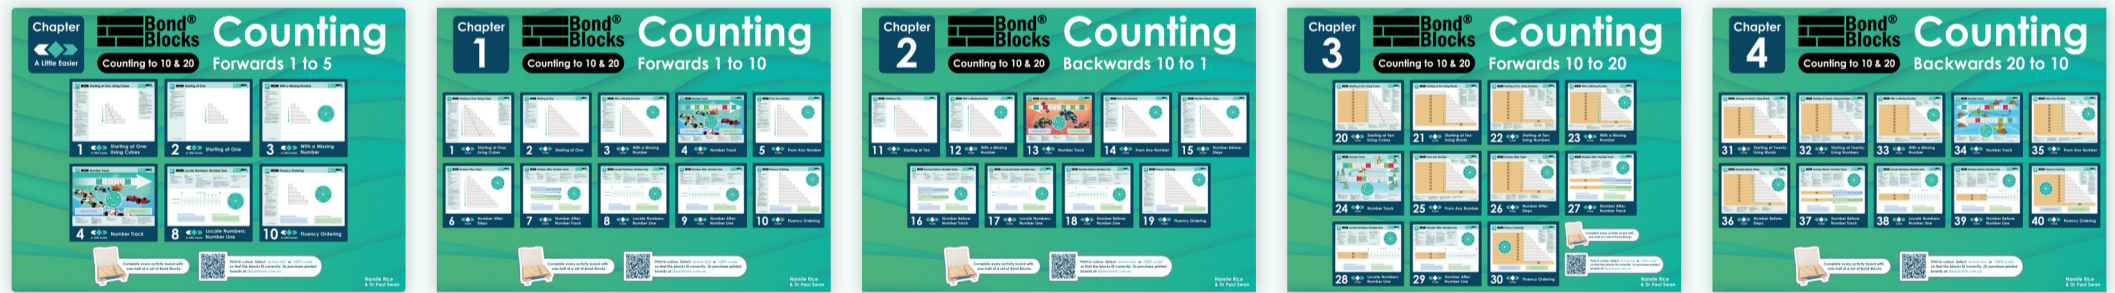

Tier 3 intervention is implemented one-on-one for students on individualised education programs using a modified version of this planner.

Students complete more of the 'a little easier' activities from the activity webpages.

A3 Teacher-Led Activity Boards

Use one A3 Teacher Led Activity board **per pair** of students with **one-half of a set** of Bond Blocks.

Teacher-Led Activities are sequenced to develop fluency counting to and from twenty. Each activity is modelled in a video for explicit teaching.

A4 Exploratory and Guided Play Cards

Use one A4 Card **per student** with **one whole set** of Bond Blocks.

Exploratory Play Cards focus on number and spatial skills.

Matching and Choosing Cards focus on **number skills**.

Building and Filling Cards focus on **spatial skills**.

Intervention Only Overview

Skill Focus	Chapter 'a little easier' Counting Forwards 1 to 5	Chapter 1 Counting Forwards 1 to 10	Chapter 2 Counting Backwards 10 to 1	Chapter 3 Counting Forwards 10 to 20	Chapter 4 Counting Backwards 20 to 10

Intervention Only Planner Structure

Gradual Release Model Implementation and Proficiency Strands

Relevant components of the **Gradual Release of Responsibility (GRR)** model are listed each day.

This planner covers all of the proficiency strands. The implementation of activities for each proficiency strand is slightly different. For example:

- **Understanding** activities require more 'I Do' and 'We Do' explicit teaching, and less 'You Do' practice. These boards have multiple sections, each with their own video.
- **Fluency** activities only have one video and have more time allocated to 'You Do' practice.

Kilpatrick, J., Swafford, J., & Findell, B. (Eds.). (2001). *Adding it up: Helping children learn mathematics*. Washington, DC: National Academy Press.

Week	Fluency - Number Before: Steps				Differentiation
5	Day 1 10 min Activity 15 Activity 15 • I do, we do, you do.	Day 2 10 min Activity 15 • We do, you do.	Day 3 10 min Activity 15 • You do.	Day 4 10 min GP Guided Play Choosing Activity Cards 1-4	A Little Harder Place Block Spun Number Between

Day 1

"I do" Focus

Introduce each new Activity by showing students the Activity Video.

This provides explicit teaching modelling of the:

- mathematics,
- language and
- completion of the activity.

Enlarged Paper Bond Blocks.

Download for efficient 'I do' set up. Located in the Getting Started menu tab.

Day 2

"We do" Focus

Model the activity with the class:

- Use either a correct or incorrect example.
- Write the mathematical language on the board

Magnetic Bond Blocks.

Make a set of blocks magnetic for teacher use during 'We do' instruction. Follow the instructions in the Getting Started menu tab.

Day 3

"You do" Focus

Observe students and provide immediate feedback about:

- mathematics (that it is correct),
- language and
- gesturing (touching the blocks correctly).

The lesson times are guides only. As students develop class routines they will become more efficient.

The goal is for students to be engaged in learning for **8 minutes** each session.

Day 4

EP Exploratory Play

GP Guided Play

Use one A4 Activity Cards **per student** with **one whole set** of Bond Blocks.

The Exploratory and Guided Play Activity Cards have been allocated to each chapter of Teacher-Led Activity Boards.

While students are completing the A4 Activity Cards, the Educator can review Teacher-Led Activity boards with students who require additional practice.

Differentiation

A Little Easier

A Little Harder

Intervention is differentiated using 'a little easier' and 'a little harder' examples from the Activity Webpage.

Intervention Only Planner

Intervention Only Planner

Monitoring Tools and Checklists

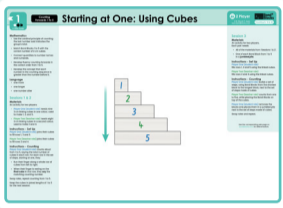

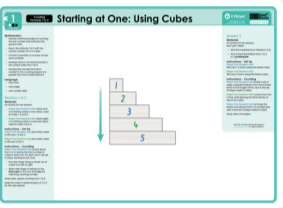

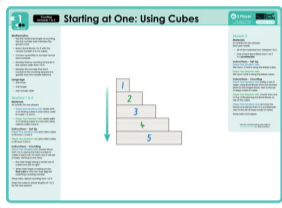

There are three different tools for monitoring intervention. Choose the one that best suits your situation.

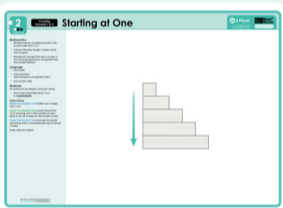

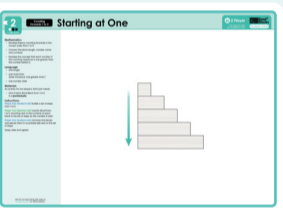

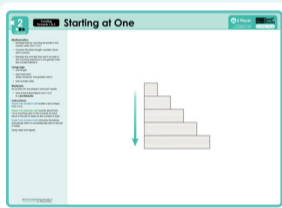

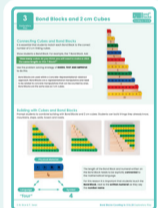

- Excel Monitoring Tool Tier 2. Record achievement of activities for a **group of four students**.
- Excel Monitoring Tool Tier 3. Record achievement of activities **for individual students**.
- PDF Monitoring Tool Individual Checklist. Record achievement of activities and assess counting skills at a **very specific level for individual students**.
