

About the Bond Blocks Counting to 10 & 20 Kit

You are receiving the letter because your child's class is using Bond Blocks Counting to 10 & 20 as part of their maths teaching in class.

Bond Blocks is informed by research using evidence-based methodology, developed by Australian teacher Narelle Rice together with Dr Paul Swan.

We will use Bond Blocks Counting to 10 & 20 to develop:

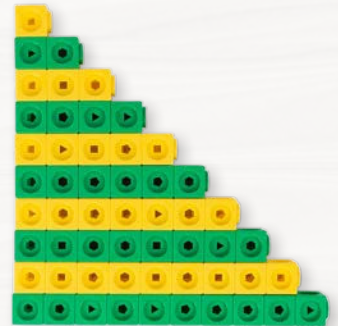

- Counting forwards and backwards, from any number, to 20.
- Saying and writing teen numbers correctly.
- Identify the number before and after numbers to 20
- Fluency locating numbers to 20 on a number line

Support for Parents

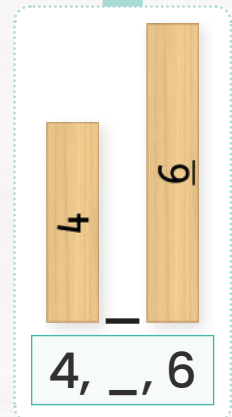

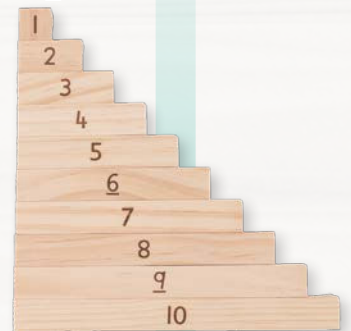

Bond Blocks Counting to 10 & 20 is made up of over 40 sequenced activities. Each activity is completed on an A3 board and is modelled in a video on the activity's matching webpage.

You can view these without a logon. See www.bondblocks.com
